Frolic Mounting Template

Directions for using this template:

1. Start at the location for the top hole # 1 on the diagram. Mark it.
2. Use a level or a weighted string to determine a true vertical line descending from that point.
3. Measure vertically down that line to points #2, #3, and #4 marking those.
4. Use a level or a square to establish a horizontal line at those points.
5. Measure along those lines to points #5, #6, and #7.
6. Temporarily install the sculpture using those points. Mark the other mounting hole #8 with the sculpture in place.
7. Remove the sculpture. Install the appropiate anchors and permanently remount the sculpture on the wall.
