

Deja Vu Mounting Template

1. Notice the clearances indicated on all sides. The sculpture needs that much room beyond the 24 x 32" (60.96 x 81.28) original template.
2. Start at the location for the top hole # 1 on the diagram.
3. Use a level or a weighted string to determine a true vertical line descending from that point.
4. Measure vertically down that line to point #2.
5. Use a level or a square to establish a horizontal line at that point.
6. Measure along that line to points 3 (both of them).
7. The upper disk gets installed at point 1. The two side screws are level with each other.
8. The base gets installed at points 3.
9. Attach it with the two screw holes. Mark the other holes in the base. Remove. Drill pilot holes. Mount the bottom piece. Continue with the directions packet.
