

## Avalanch Mounting Template

Directions for using this template:

1. Start at the location for the top hole # 1 on the diagram.
2. Use a level or a weighted string to determine a true vertical line descending from that point.
3. Measure vertically down that line to each of the following points and then use a level to measure horizontally to its matching numbered hole. Mark that spot.
  - 2 - at 11 1/4" then 11 7/8" to the right.
  - 3 - at 14" and then 13 15/16" to the left
  - 4 - at 23 5/8" and then 32" to the left AND 30" to the right
  - 5 - at 25 3/8" and then 1 7/8" to the left
  - 6 - at 33 1/8" and then 19.5" to the right
  - 7 - at 33 5/16" and then 17 3/8" to the right

4. Temporarily install the sculpture using those two points for each base piece. There are 4 separate base pieces. Mark the other mounting holes with the sculpture in place.
5. Remove the sculpture. Install the appropriate anchors and permanently remount the sculpture on the wall.
