

Swoop Mounting Template

Directions for using this template:

1. Start at the location for the top hole # 1 in the diagram. Mark it on the wall.
2. Use a level or a weighted string to determine a true vertical line descending from that point.
3. Measure vertically down that line to point #2 marking that spot.
4. Use a level or a square to establish a horizontal line at that point.
5. Measure along that line to point #3.
6. Temporarily install the sculpture using those two points. Mark the other mounting hole #4 with the sculpture in place.
7. Remove the sculpture. Install the appropriate anchors and permanently remount the sculpture on the wall.
